Welcome To Our Company

At Dmitro Development Ltd, we specialise in the design, supply, and installation of high-performance cladding and façade systems. Working with developers, main contractors, and consultants, we deliver building envelope solutions that combine architectural intent with technical precision.

Our integrated approach ensures efficient coordination, safe installation, and the highest standards of quality—creating façades that perform, protect, and stand the test of time.

About Us

Dmitro Development Ltd provides fully integrated façade contracting services, combining design coordination, system procurement, and specialist installation under one accountable contractor.

We have successfully delivered projects across residential, commercial, and education sectors throughout London and the South East. Our reputation is built on technical expertise, reliability, and a commitment to delivering compliant, high-quality façade solutions.

Driven by Vision. Defined by Precision.

Our vision guides every stage of our work — from early design coordination to final installation. We focus on delivering façade solutions that combine architectural intent, regulatory compliance, and long-term performance.

Our Vision

Trusted Excellence in Building Envelopes

To be a trusted and recognised façade contractor, delivering safe, technically sound, and high-quality building envelope solutions across the UK.

Our Mission

Integrated Delivery. Proven Performance.

- To provide fully integrated design, supply, and installation services
- To deliver projects safely, on programme, and within budget
- To maintain strict compliance with current UK building regulations
- To build long-term partnerships based on trust and performance

Our Services

At Dmitro Development, we provide end-to-end façade solutions, combining expert design, high-quality materials, and precise installation to deliver exceptional results on every project.

01. Façade Design & Technical Detailing

Design development, coordination, technical drawings, and compliance support to ensure buildability and system performance.

02. Cladding Supply & Procurement

Sourcing and supplying approved façade systems and materials tailored to project requirements.

03. Professional Installation

Experienced installation teams delivering precise, safe, and efficient on-site execution.

04. Rainscreen & Ventilated Systems

Durable façade solutions designed for moisture control, thermal efficiency, and long-term performance.

05. SFS & Substructure Systems

Steel framing and support systems designed for structural integrity and façade stability.

06. Aluminium & Composite Panel Systems

Lightweight and versatile cladding finishes, ideal for contemporary architectural designs.

Why Choose Us

With over 21 years of industry experience, Dmitro Development is a veteran-owned façade contractor with a proven track record of delivering high-quality building envelope solutions. Based in London, we have successfully completed over 30 projects across the UK, with a combined value exceeding £23 million, working alongside some of the UK's leading construction firms. Our integrated approach, technical expertise, and commitment to quality ensure reliable, compliant, and high-performing façade solutions on every project.

Integrated Delivery Model

Design, supply, and installation managed under one accountable contractor, ensuring efficiency, clarity, and full project control.

Technical Expertise

Strong understanding of façade systems, fire compliance, and performance requirements.

Quality Assurance

Structured and controlled processes from technical detailing through to installation and final completion, ensuring consistent quality standards.

Reliable Programme Delivery

Committed to meeting construction timelines and coordinating effectively with main contractors and site teams.

Collaborative Approach

Working closely with contractors, architects, and consultants to ensure smooth coordination and successful project outcomes.
